Sir,

In the course of the coming summer I hope to spend a brief time in the county of Dorset & as one taking an interest in prehistoric & Roman antiquities I wish to visit some of those remains especially the Roman

roads & hills I understand spirit in parts in your preservation.

My object in troubling you with this letter is to ask you to kindly let me know where the manuscript papers which you have written dealing with these matters are to be obtained.

Trusting that you will pardon the trouble of our young son by our lovingly
