HERE VICARAGE,
WILTS.

My dear Medlicott -

We have discovered a part
of the foundation of the walls
of the old Castle built here
on the hill in the time of
Henry 2nd and what appears
to have been a covered passage
leading from one tower to
another & possibly the entrance
to the Castle - We have
leave of the Prince of Wales
to excavate but before going
further we want someone
with knowledge to give us

advice - I asked Talbot to
come but he declined -
Do you think I could get
anyone on their way to
or from the Archaeological
Institute at Salisbury in August
& who would you advise
me to ask -

I do not know who is specially
up in old Castles -

Yours truly

Edwin J. Hylod.
