Nov. 15. 1887.

(L413)

Dear Sir

In a new edition of  
"Whites Pelhorne" is the following  
"note to Letter I of Antiquities of  
Pelhorne,

"In October 1843. two earthenware  
vessels were found two feet under  
the surface of a field near  
Pelhorne containing about  
thirty thousand Roman and  
Roman British coins." -

Would you kindly inform me  
where I might get particulars  
of this grand find? -

In the Antiquary (Elliot Stock)  
vol 4. Page 220 is the particulars  
of a find

made in 1864 near Tetley Hants  
also of a find near Eastbourne  
in Sussex 1849. = Pelhorne lies  
between these (though farther inland)  
both as regards its geographical  
locality as well as in the  
roll of time

I believe

Yours most respectfully

Chas. M. Bennett.

St. Pitt-Rivers.

Rushmore.

Salisbury.
