Dear General Pitt Rivers,

You may remember perhaps my mentioning to you the Heisenbach illustrating process work - Mr Gilbert Thomas kindly got me their prospectus & terms, which I now enclose, & he told me to add that he thought he could at any time get a large discount on their terms for work introduced through this paper.

He considers that it is quite the best ~~work~~ reproduction done in England, & is hardly second even, now, to the American "process" work.

Since I came back I have been too busy to begin an article on King John's House but I am hoping to do so soon.

With kind remembrances
to Mrs Pitt Rivers

Yours very sincerely
May Frances Billington
