

Sturminster Newton,

Blandford, 5<sup>th</sup> July - 1884

Dear General Pitt-Rivers,

I hope to go to Rushmore on either Thursday or Saturday next when I will get the undertakings signed as to giving up the cottages on receiving the 7 days notice instead of 28 as proposed in the first instance, the point that was not decided was whether they should sign these undertakings or pay a small rent

I think the former will be all that is  
necessary as by paying a cent it  
creates a penny.

I return Anderson's letter, the  
Agent refused to only brought his  
accounts up to midsummer <sup>only</sup> so  
therefore had about 6 or 7 months  
to prepare them or about the same  
I have, anything Anderson can suggest  
I shall be very glad to fall in with.

I return Campbell's estimate which is  
about what it should be but I should  
think if he had it better estimated once  
he would be able to do the second time

with his assets. I do not think any  
one else would take this at present  
& I think it would be in advantage  
to the Tolson & Son to have this  
made.

I remain

Yours very obedt servant

A. W. Peck
